Teleco of the Rockies Invited to Participate at the 9th Annual TAG Convention

Jeff O'Neill, VP of Business Development of Teleco of the Rockies, to Share His Expertise to Top Business Communications Providers in the U.S. and Canada

ENGLEWOOD, CO — February 18, 2009 — Teleco of the Rockies, an industry leader in business communications, announced today that Technology Assurance Group (TAG), an association of independently owned voice and data providers representing close to \$400 million in annual sales, invited Jeff O'Neill, VP of business development of Teleco of the Rockies, to participate in the discussions on the state of the industry at its 9th Annual TAG Convention. The audience will consist of the most reputable and successful providers located throughout the United States and Canada. TAG's 2009 National Convention will be held on March 27th – 29th in San Diego, California.

The theme for the upcoming year's convention is "The Future Is in Leading Our Industry". The convergence of voice and data technology is forcing two separate industries to integrate and become one, offering a complete managed services solution. Traditional voice companies are adding data solutions to their repertoire of services, while traditional data VARs are offering voice solutions. Those organizations that are completely immersed in providing both resulting in a true managed services model will survive

and become the leaders of this new industry.

"It is an honor to share our knowledge and experiences in managed services to our colleagues," said Mr. O'Neill. "Managed services is going to greatly benefit small to medium sized businesses by helping to increase their profitability, improve productivity and give them a competitive advantage."

"The TAG Convention provides a unique opportunity where our member companies interact and learn better business practices from leading organizations," stated Dale Johnson, CEO of TAG. "Mr. O'Neill is well respected among his peers and his company is one of our premier members."

ABOUT TELECO OF THE ROCKIES
